“YOU WANT TO BE A PART OF THIS!”

SENIOR WEB DEVELOPER

What would a typical day on the job be like — what type of work would I do?

Do you have a knack for details and a passion for seeing your project come to life? This may be the perfect opportunity for you!

The Web Developer is responsible for performing technical work in support of the City's web/software design, development, and integration! Housed in the Information Technology department, this is an exciting opportunity to work with the City's web sites, applications and application interfaces! Day to day, you will perform database designs, debug applications, develop test data, and verify user output solutions. At the senior level, you will handle complex work, and projects that require your expertise!

Communication skills and the ability to build interpersonal relationships will come in handy, as you will serve as a project liaison with internal management teams to ensure the needs of the department are being met through the websites. You could provide technical assistance, troubleshoot and resolve any issues, or make recommendations to enhance the functionality as it relates to the specific department's needs. There also may be an opportunity for this position to support the department development staff with any special projects as needed. You may also have the opportunity to do some training with liaisons, to ensure they understand the functionality of the specific applications as it relates to their needs.

This position does have the opportunity for periodic telework subject to the supervisor's discretion depending on scope of work and current project load.

How much money can I make?

The salary range for this position is \$56-\$96k. Salary ranges are competitive based on qualifications and experience. In addition to salary, the City offers a comprehensive benefits package designed to meet all of our employee's needs!

What does career advancement look like in this position?

From the Senior Web Developer position, there are promotional opportunities into management and lateral opportunities within the department. You will have exposure to the Information Technology department as a whole, which will provide the opportunity for continuous learning, professional development, and enhance your knowledge of policies and process. We believe that long-term career growth is a key aspect of job satisfaction!

What are the qualifications for this position?

This position requires a Bachelor's Degree in Information Technology, Computer Science or a related field with 5 - 7 years of progressively responsible experience in application development, including some lead or supervisory experience, or an equivalent combination of education and experience.

An acceptable general background check to include a local and state criminal history check and a valid driver's license with an acceptable driving record will also be required.

Why should I work for the City of Newport News?

The City of Newport News is an organization committed to excellence in public service with strong communication and teamwork. As an established employer of choice in the Hampton Roads area, the City is also dedicated to maximizing employee potential. Join the City Newport News and embrace the City's values of "Commitment, Caring and Collaboration."

Other stuff that's good to know:

The City of Newport News offers a comprehensive benefits package to include a Virginia Retirement System defined benefit and defined contribution plan, medical, dental, vision, and a variety of wellness initiatives. We offer great training programs for new and current employees, competitive pay, and paid time off! Come join a team that treats you like family and emphasizes open communication!
